M. Sc. Data Science

Introductory Meeting
Master of Data Science

Program Coordination

Head of program
- Prof. Dr. Martin Grohe

Academic advisor
- Christof Löding
- email: data-science@cs.rwth-aachen.de
- Office Hours: see section “contact” on website
  www.data-science.rwth-aachen.de
1. Program Structure

2. Planning your Studies
Program Structure

Where to find information:

- Official Documents (only available in German):
  - “Übergreifende Prüfungsordnung” (general rules for all programs)
  - “Fachspezifische Prüfungsordnung” (subject specific rules)
- Slides from this meeting (will be published on the web)
- Descriptions on www.data-science.rwth-aachen.de
Program Structure

Where to find information:

- Official Documents (only available in German):
  - “Übergreifende Prüfungsordnung” (general rules for all programs)
  - “Fachspezifische Prüfungsordnung” (subject specific rules)
- Slides from this meeting (will be published on the web)
- Descriptions on www.data-science.rwth-aachen.de

General Structure:

- You need to complete 120 CP (credit points = ECTS) for your degree.
- Master thesis counts for 30 CP.
- You have to choose and complete courses for 90 CP in total from different areas according to some rules, as explained in the following.
Program Structure

Foundational (Core) Area (44 - 64 CP)

- Computer Science (at least 18 CP)
  *Introduction to Data Science (6 CP) + further CS courses*

- Mathematics (at least 18 CP)
  *Mathematics of Data Science (9 CP) + further Math courses*

- Data Science Ethics
  *Ethics, Technology, and Data (4 CP)*

S/P (12 CP)

- Seminar (5 CP), Practical Course (7 CP)

Specialisation Area (14 - 22 CP)

- Computer Science (CS)
- Mathematics (M)
- Computer Science and Mathematics
- Application Area (BA, CLS, CSS or P)

- Lecture courses from respective catalogues
- Master's thesis

Master's Thesis (30 CP)

- Additional Competences (0 - 12 CP)
- Language course, non-technical courses from universities' program,...

+ "Scientific Integrity"
Foundational (or Core) Area (44-64 CP)

Mandatory Courses

Introduction to Data Science (6 CP)
- Prof. Dr. Wil van der Aalst
- this semester

Mathematics of Data Science (9 CP)
- Prof. Dr. Erhard Cramer
- Prof. Dr. Holger Rauhut
- this semester

Ethics, Technology, and Data (4 CP)
- Prof. Dr. Sakia Nagel
- next semester
Foundational (or Core) Area (44-64 CP)

Elective Courses

Computer Science (at least 12 CP)
- Machine Learning
- Data Analysis and Visualization
- Probabilistic Programming
- Privacy Enhancing Technologies for Data Science
- Algorithmic Foundations of Data Science
- Concepts and Models for Parallel Data-Centric Computation
- Semantic Web

Mathematics (at least 9 CP)
- Applied Data Analysis
- Nonlinear Optimization Optimierung A
- Combinatorial Optimization Optimierung B
- Mathematical Methods of Signal and Image Processing
- High-Dimensional Probability for Mathematicians and Data Scientists
- Mathematical Foundations of Machine Learning
Seminar and Lab Course (5+7 CP)

Seminar: oral presentation and written report on a subject assigned to you
Lab course (practical course): software project in a team

- Each semester, there is a variety of seminars and lab courses offered by the department.
- Registration and distribution of places outside of RWTHonline in a separate system already at the end of the previous semester.
- You will be informed via the mailing list when the process starts.
Specialisation Area (14 - 22 CP)

- Elective courses of 14-22 CP from one of the following areas:
  - Computer Science
  - Mathematics
  - Computer Science and Mathematics
  - Business Analytics
  - Computational Life Science
  - Computational Social Science
  - Physics (only for Students with a Bachelor’s Degree in Physics)
- For each area there is a catalogue of courses (see RWTHonline)
- Formal election of specialisation area together with the registration of Master’s Thesis (at the latest)

Rule for upper credit limit:
- One course “overflowing” the 22 CP is allowed.

Example:
- 4 courses with 6 CP (\(=24\) CP) would be fully counted.
- 5 courses with 6 CP are too many, one of them would not be counted.
Specialisation Area (14 - 22 CP)

- Elective courses of 14-22 CP from one of the following areas:
  - Computer Science
  - Mathematics
  - Computer Science and Mathematics
  - Business Analytics
  - Computational Life Science
  - Computational Social Science
  - Physics (only for Students with a Bachelor’s Degree in Physics)
- For each area there is a catalogue of courses (see RWTHonline)
- Formal election of specialisation area together with the registration of Master’s Thesis (at the latest)

Rule for upper credit limit: One course “overflowing” the 22 CP is allowed. Example:
- 4 courses with 6 CP (\(=\) 24 CP) would be fully counted.
- 5 courses with 6 CP are too many, one of them would not be counted.
Specialisation Area (14 - 22 CP)

Rules for Specialization

Business Analytics, Computational Life Science, Physics:
- at least 20 CP from the courses of the respective area

Computer Science, Mathematics, Computer Science and Mathematics:
- at least 10 CP from the courses of the respective area
- at most 6 CP of courses from any other specialization area

Computational Social Science
- at least 10 CP from the courses of the respective area
- at most 8 CP of courses from specialization CS or maths
Specialisation Area – Master’s Thesis (30 CP)

- Requirements for registration
  - at least 60 CP
  - completed course “Scientific Integrity”
  - **recommended:** completed the mandatory courses
    “Introduction to Data Science”, “Mathematics of Data Science”, “Ethics, Technology and Data”
  - specialization “Business Analytics”: at least one of “Combinatorial Optimization” or “Operations Research I”
Specialisation Area – Master’s Thesis (30 CP)

- Requirements for registration
  - at least 60 CP
  - completed course “Scientific Integrity”
  - recommended: completed the mandatory courses
    “Introduction to Data Science”, “Mathematics of Data Science”, “Ethics, Technology and Data”
  - specialization “Business Analytics”: at least one of “Combinatorial Optimization” or “Operations Research I”

- topic from specialisation area; there is no central list of topics, you have to directly contact the research groups

- thesis (27 CP) + oral presentation (3 CP)

- 6 Months duration, max 100 pages

- first reviewer from the specialisation area, second reviewer from CS or math department

- written within RWTH with a professor from your specialization area; external theses are an exception and should be coordinated with a research group from your specialization
Additional Competences (0-12 CP)

This area is optional!

Twofold purpose:

- Opportunity to broaden your knowledge on non-technical subjects:
  - language course at RWTH language center (up to 4 CP): register today for this semester!
  - “non-technical” courses offered at RWTH Aachen (up to 6 CP) (philosophy, history, social sciences, economics, ...)

- You join with background on CS, maths, or physics. You can attend basic courses from CS or maths if this is not your background:
  - bridge courses (blended learning modules):
    - with background maths or physics: Algorithms and Data Structures, Databases (every semester)
    - with background CS or physics: Stochastics II (winter)
  - or corresponding courses from CS/math bachelor (in German)

Grades of courses in additional competences do not count for the final grade (but the credits do count).
Additional Competences (0-12 CP)

This area is optional!

Twofold purpose:

- Opportunity to broaden your knowledge on non-technical subjects:
  - language course at RWTH language center (up to 4 CP): register today for this semester!
  - “non-technical” courses offered at RWTH Aachen (up to 6 CP) (philosophy, history, social sciences, economics, ...)

- You join with background on CS, maths, or physics. You can attend basic courses from CS or maths if this is not your background:
  - bridge courses (blended learning modules):
    - with background maths or physics: Algorithms and Data Structures, Databases (every semester)
    - with background CS or physics: Stochastics II (winter)
  - or corresponding courses from CS/math bachelor (in German)

Grades of courses in additional competences do not count for the final grade (but the credits do count).

Approval needed: Except for the language course, your choices for additional competences currently need to be approved by the academic advisor.
Scientific Integrity

- Online Course about good scientific practice (offered each semester)
- Mandatory for all master students of RWTH Aachen since winter 2020.
- Exam as so-called homework via Dynexite (offered twice per semester)
- No credits for this course
- More information: Web page for course Scientific Integrity

Outline

1. Program Structure

- Foundational (Core) Area (44 - 64 CP)
  - Computer Science (at least 18 CP) [Introduction to Data Science (6 CP) + further CS courses]
  - Mathematics (at least 18 CP) [Mathematics of Data Science (9 CP) + further Math courses]
  - Data Science Ethics [Ethics, Technology, and Data (4 CP)]

- S/P (12 CP) [Seminar (5 CP), Practical Course (7 CP)]
  - Specialisation Area (14 - 22 CP)
  - Master's Thesis (30 CP)
  - Additional Competences (0 - 12 CP)

2. Planning your Studies

Start in winter semester:
- Add. Comp. 0-12
- Master's Thesis 30
- Core Area 44 - 64
- Maths ≥ 18
- CS ≥ 18
- P/S 12
- Seminar
Planning your Studies

Example for a first semester:

- Introduction to Data Science (6 CP, mandatory CS, core area)
- Mathematics of Data Science (9 CP, mandatory math, core area)
- Machine Learning (6 CP, electives CS, core area)
- Data Analysis and Visualization (4 CP, electives CS, core area)
- Language course (4 CP, additional competences)
Planning your Studies

Example for a first semester:
- Introduction to Data Science (6 CP, mandatory CS, core area)
- Mathematics of Data Science (9 CP, mandatory math, core area)
- Machine Learning (6 CP, electives CS, core area)
- Data Analysis and Visualization (4 CP, electives CS, core area)
- Language course (4 CP, additional competences)

Example for a second semester:
- Ethics, Technology, and Data (4 CP, mandatory, core area)
- Algorithmic Foundations of Data Science (6 CP, electives CS, core area)
- Concepts and Models for Parallel Data-Centric Computation (6 CP, electives CS, core area)
- Mathematical Foundations of Machine Learning (9 CP, electives maths, core area)
- first course from specialization CS (6 CP)
Planning your Studies

Example for a third semester:

- Seminar (5 CP)
- Software Lab (7 CP)
- Privacy Enhancing Technologies for Data Science (4 CP, electives CS, core area)
- second course from specialization CS (8 CP)
- third course from specialization CS (6 CP)

Fourth semester: Master thesis (30 CP)
Planning your Studies

Example for a third semester:

- Seminar (5 CP)
- Software Lab (7 CP)
- Privacy Enhancing Technologies for Data Science (4 CP, electives CS, core area)
- second course from specialization CS (8 CP)
- third course from specialization CS (6 CP)

Fourth semester: Master thesis (30 CP)

Remarks:

- This is just an illustrative example for specialization CS. There is no guarantee that the mentioned courses are offered in the corresponding semester.
- Some courses might be overlapping. But for almost all courses, a lot of digital material is provided, such that studying overlapping courses is possible.
- It is also possible to do courses in parallel with the thesis.
Finding and Choosing Courses

- Catalogue of courses generally offered in the data science program in RWTHonline
- See also FAQ on www.data-science.rwth-aachen.de
  Question: “Where can I get information on the curriculum?”
- Before a semester starts, you can check in RWTHonline which courses are offered in that semester
- Elective courses of the computer science department (in general, not specific to data science) are usually presented at the beginning of the semester: Webpage for elective courses of CS department in winter 2022/23
- Teaching is done in English. Ask the lecturers if not.

Registration:
- Register in RWTHonline at beginning of semester (see there for deadlines, usually until a few weeks after start of semester)
- Registration does not imply that you actually have to take the course
Exams

- Details on the exams (written, oral, or other components) are announced in the courses.
- In some courses you need to do weekly exercises to get an admission for the exam.
- For the courses of a semester, usually two written exams are offered after the teaching period.
- If you fail the first attempt, you can register for the second one. You can also skip the first one and only take the second one.
- You have three attempts to pass the exam of a course. If you fail the two attempts of one semester, you have to wait until the course is offered again (or choose another course in case of electives).
- Register in RWTHonline once you have decided which courses to take.
- Current registration deadlines:
  - First exam: November 15 – January 15
  - Second exam: until one week before exam
- You can deregister from an exam until three working days before the exam.
- See webpage with information on exams: (de)registration, withdrawal due to illness,...
Who is Doing What?

Individual research groups:
- offer courses and corresponding exams (look at the webpages of the individual research groups to find out more about their research and teaching)
- set up and administer registration for courses and exams

ZPA (central examination office):
- administration of your academic record

Academic advisor:
- answer questions, give advice, approve additional competences, ...
The End
